JUVENILE JUSTICE

IN CALIFORNIA

2020

The Role of the Criminal Justice Statistics Center is to:

- Collect, analyze, and report statistical data that provide valid measures of crime and the criminal justice process.
- Examine these data on an ongoing basis to better describe crime and the criminal justice system.
- Promote the responsible presentation and use of crime statistics.

Executive Summary

Juvenile Justice in California

2020

The California Department of Justice (DOJ) is required to collect and report statistics on juvenile justice in California. *Juvenile Justice in California 2020* provides insight into the juvenile justice process by reporting the number of arrests, referrals to probation departments, petitions filed, and dispositions for juveniles tried in juvenile and adult courts. Law enforcement agencies provide information to the DOJ on the number of arrests. Probation departments and superior courts provide information to the DOJ on the types of offenses and administrative actions taken by juvenile and adult courts.

Juvenile Justice in California 2020 reflects data extracted from the Monthly Arrest and Citation Register (MACR), the Juvenile Court and Probation Statistical System (JCPSS), and a file containing dispositions of adult-level felony arrests (Appendix 1 describes the evolution of this system). For this reporting year, referral and petition statistics were submitted to the JCPSS by 57* of California's 58 counties, representing over 99 percent of the state's juvenile population.

Juvenile Justice in California 2020 presents juvenile justice statistics in four sections: Arrests, Referrals, Petitions, and Adult Court Dispositions. The arrest data were reported by law enforcement agencies and referral data were reported by probation departments. Comparisons between arrest data and referral data should not be made as there are differences in the way data were reported between the two sources. See Understanding the Data for more detail.

In reviewing data relating to events occurring during the 2020 calendar year, readers should be mindful of the potential effects of the worldwide COVID-19 pandemic. An officially declared State of Emergency covered most of the year, and various health-related orders, rules and guidelines significantly impacted daily life in California and across the world. Whether, how and to what extent the pandemic influenced the data in this report are questions requiring research and careful analysis. For the purposes of this report, the Department simply acknowledges this potential issue.

*Sierra County did not report in 2020. The DOJ continues to work with Sierra County in order to achieve 100 percent participation.

Below is a summary of facts from each of the sections.

Arrests

The Arrests section presents information on the number of juveniles arrested, the types of arrest charges, and the demographic characteristics of the juveniles as reported in 2020.

- Over forty percent of the juveniles (46.4 percent) were arrested for a misdemeanor offense. Over forty percent (44.1 percent) were arrested for a felony offense, and the remainder (9.5 percent) were arrested for a status offense (Table 1).
- Eight out of ten juveniles arrested (81.9 percent) were referred to county juvenile probation departments (Table 1).
- The number of juvenile arrests has decreased by 40.5 percent from 2019 to 2020 (Table 8).

Referrals

The Referrals section presents information on the number of juveniles referred to county probation departments, who referred the juveniles to the probation departments, the type of referral, the demographic characteristics of the juveniles referred, and the probation department dispositions as reported in 2020.

- Nine out of ten juveniles referred to county probation departments (92.6 percent) were referred by law enforcement agencies (Table 9).
- Three out of ten (30.8 percent) juveniles referred to county probation departments were detained (Table 14).
- Over one-third (38.2 percent) of the juvenile cases referred to county probation departments were closed at intake, indicating that no further action was taken (Table 14).
- In over half (53.2 percent) of the referrals to the county probation departments, a petition was filed in juvenile court (Table 14).

Petitions

The Petitions section presents information on cases where a petition was filed, including the number of petitions filed, the types of petitions filed, the demographic characteristics of the juveniles, and the dispositions for those petitions handled in juvenile court in 2020.

- Of the juveniles handled formally by the juvenile court, more than half (56.4 percent) were made wards of the court (Table 20).
- Over one-fifth (22.1 percent) of the petitions for formal juvenile court adjudication were dismissed (Table 20).

Adult Court Dispositions

The Adult Court Dispositions section presents information on juveniles whose cases were processed in adult court, including the number and characteristics of the juveniles, and the adult court dispositions reported in 2020.

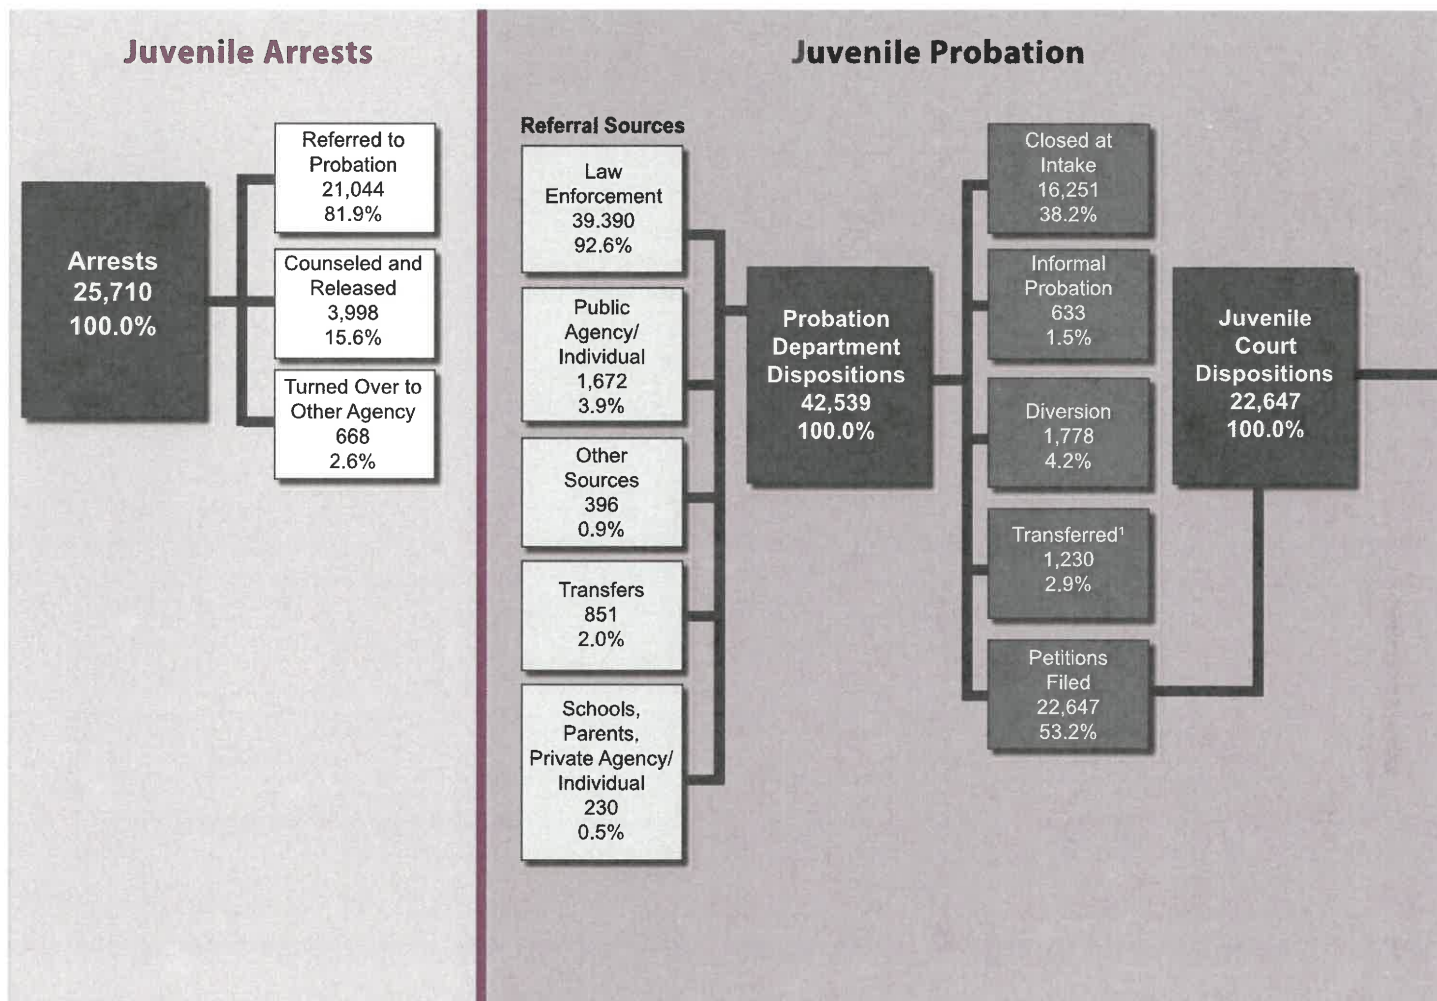

- Of the juveniles tried in adult court, 71.1 percent were convicted (Table 30).

Note:

In November of 2016, California voters passed Proposition 57, which ended the process of juveniles being transferred directly (direct filed) to adult court by county prosecutors. The new law was effective immediately, making 2016 the final year, and a partial year, where direct file data would need to be tracked as part of the Juvenile Justice in California publication. Proposition 57 did leave in place the process of juveniles being transferred to adult court by a juvenile court judge via fitness hearings.

¹ Transferred includes traffic court and deported.

² In 2020, probation departments reported information on 25 remands to the adult system. The adult court disposition information discussed here is for the 45 dispositions received in 2020.

Juvenile Justice System, 2020 (continued)

- Arrest data were reported to the DOJ by law enforcement agencies and referral data were reported by probation departments. Data comparisons should not be made because of differences in the way data are reported between sources. See Understanding the Data for more detail.
- Typically, referrals are made to the probation department in the juvenile's county of residence. The majority of referrals in this report came from police and sheriff's departments (92.6 percent). (Table 9)
- Probation departments decide how to process referred cases. A case may be closed or transferred; a juvenile may be placed on informal probation or in a diversion program; or a petition may be sought for a court hearing.
- Most formal juvenile court hearings resulted in the juvenile being made a ward of the court (56.4 percent). Most wards were allowed to go home under the supervision of the probation department (53.7 percent). (Table 20)
- Juveniles can be remanded to the adult criminal justice system for prosecution if a juvenile court judge finds the juvenile is unfit for juvenile court. Over two-thirds of dispositions received in adult court in 2020 resulted in a conviction (71.1 percent). (Table 30)

Understanding the Data

Arrests MACR

- If a person is arrested for multiple offenses, the MACR selects only the most serious offense based on the severity of possible punishment.
- Felony arrest counts may include some misdemeanor warrants for felony offenses.
- In 2013, the Federal Bureau of Investigation's Uniform Crime Reporting Program revised the definition of "forcible rape" (the carnal knowledge of a female forcibly and against her will) to "rape" and defined as "penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim." The California DOJ instituted this definition change in January 2014.
- In November 2014, California voters passed Proposition 47, which reduced a number of marijuana-related offenses from felonies to misdemeanors. Caution should be used when comparing felony and misdemeanor arrest data to prior years.
- In November 2016, California voters passed Proposition 64 which legalized the possession and use of marijuana for individuals 21 years of age and older and reduced the offense degree for a number of marijuana-related offenses. Caution should be used when comparing drug offense arrests to prior years.
- The Federal Bureau of Investigation's Uniform Crime Reporting Program only accepts gender values of male and female. Efforts are underway to expand the values accepted for gender.

Referrals and Petitions JCPSS

- Each year there is a difference between the number of referrals to probation via the JCPSS and the number of juvenile arrests reported by law enforcement agencies as "referred to juvenile court and probation" via the MACR. The difference is due, in part, to the various programs and definitions used by law enforcement agencies and probation departments for submitting data to the DOJ. However, there are two primary reasons for the difference:
 - a. Probation departments report caseload information, while law enforcement agencies report information on individual arrests.
 - b. The JCPSS counts only those juveniles who have a final disposition reported to the DOJ. Many probation departments divert juveniles out of the system into other "community based" programs. As a result, many juveniles who are diverted after being referred by law enforcement agencies are not reported on the JCPSS.
- All juvenile referrals for law violations and status offenses are reported in the JCPSS.
- The information presented in this report represents the data received from 57 counties. Sierra County is not included in the JCPSS portion of the report. This one county did not provide the DOJ with data in 2020.
- In 2003, the JCPSS was modified to accept up to five offenses per referral or petition. Previously, the JCPSS would only accept the most serious offense per referral or petition.

- The subjectivity of the classification and labeling process must be considered in the analysis of race/ethnic group data. As commonly used, race refers to large populations that share certain physical characteristics, such as skin color. Because these physical characteristics can vary greatly within groups, as well as between groups, determination of race is frequently, by necessity, subjective. Ethnicity refers to cultural heritage and can cross racial lines. For example, the ethnic designation “Hispanic” includes persons of any race. Most commonly, self-identification of race/ethnicity is used in the classification and labeling process.
- In November of 2016, California voters passed Proposition 57, which ended the process of juveniles being transferred directly (direct filed) to adult court by county prosecutors. The new law was effective immediately, making 2016 the final year, and a partial year, where direct file data would need to be tracked as part of the Juvenile Justice in California publication. Proposition 57 did leave in place the process of juveniles being transferred to adult court by a juvenile court judge via fitness hearings.
- In September of 2018, SB 1391 was signed into law and establishes that no juvenile under the age of sixteen can be transferred to the jurisdiction of adult criminal courts.
- of a felony arrest and are displayed by the year of disposition regardless of the year in which an arrest occurred.
- Disposition data do not reflect the actual number of final dispositions occurring each year. Fluctuations from year to year may not necessarily be the result of actual occurrences in the criminal justice system, but may reflect the degree to which reports of dispositions were reported and processed.
- “Final disposition” refers to the last adult-level legal action that is reported prior to the close of the annual file. Final disposition can occur at the law enforcement, prosecutorial, or court level. Intermediate dispositions (diversion programs, suspended proceedings, or subsequent actions) are not included in the data.
- If a person is arrested for multiple offenses, the extract selects only the most serious offense based on the severity of possible punishment. If there are multiple dispositions, the extract selects the most serious disposition and the associated offense.
- Disposition data on state institutional commitments may vary from information compiled and reported by other state agencies because of differences in the data collection systems and criteria.

Dispositions of Adult-Level Felony Arrests

- Adult felony arrest disposition data are extracted annually from the California DOJ Criminal History System. The data statistically capture the number of adult-level final dispositions that occur each year as a result
- The adult felony arrest disposition file includes some persons whose age at arrest was under 18. These minors received a final disposition in adult court under provisions of Welfare and Institutions Code sections 602, 707(a), 707(b), 707(c), and 707.1(a).

DATA ANALYSIS

Arrests

A juvenile may be arrested for either violating a criminal statute or committing a status offense. Status offenses are acts that are offenses only when committed by a juvenile, such as curfew violations, truancy, running away, and incorrigibility.

This section contains information on the 25,710 juvenile arrests reported by law enforcement agencies in 2020. This section also includes information on the characteristics of juvenile arrests and arrestees, and the law enforcement dispositions of those arrests. Although some arrests involve more than one offense, only the most serious are shown in this report. Arrest data for all 58 counties were extracted from the MACR.

The law enforcement disposition of a juvenile arrest is affected by several variables: investigative findings and the facts surrounding the alleged offense; prior arrest record; seriousness of the offense; determined need for admonishment; recourse to other authority; and other factors determined by the individual case.

Law enforcement agencies have three methods for the disposition of a juvenile arrest:

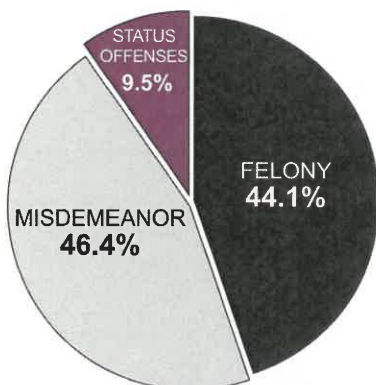

- Refer to probation departments for further processing. Some are handled at the probation level, and others are sent to juvenile and criminal courts for final disposition.
- Handle within the department, where juveniles are counseled and released.
- Turn over to another agency.

Notes: References to race/ethnicity will be made throughout this report. The subjectivity of the classification and labeling process must be considered in the analysis of race/ethnic group data. As commonly used, race refers to large populations that share certain physical characteristics, such as skin color. Because these physical characteristics can vary greatly within groups, as well as between groups, determination of race is frequently, by necessity, subjective. Ethnicity refers to cultural heritage and can cross racial lines. For example, the ethnic designation Hispanic can include persons of any race. Most commonly, self-identification of race/ethnicity is used in the classification and labeling process.

Percentages throughout this section may not add to 100.0 because of rounding.

Referrals

Juvenile referrals occur when a juvenile is brought to the attention of the probation department for a case review. Juveniles can be referred by a variety of sources, with the largest percentage of referrals coming from law enforcement. Referrals may also be generated by a school, parent, public agency or individual, private agency or individual, or by transfers from another county or state.

Referrals to the probation department consist of two types: new and subsequent. The term “new referral” applies to a juvenile who is not currently supervised by the probation department and is typically a first-time offender. The term “subsequent referral” applies to a juvenile who is currently supervised by the probation department. A subsequent referral generally results from a new arrest or probation violation.

After a juvenile is referred to the probation department, a probation officer determines whether the juvenile should be detained or released. The probation department also conducts an investigation and determines whether the case should be closed or transferred to another county; whether the juvenile should be placed on informal probation; or whether a petition should be filed with the court.

This section examines referrals by gender, age group, and race/ethnic group. For the purpose of this section, the term “juvenile” refers to those individuals processed through the juvenile court system.

The data used in this section originated from 57* participating county probation departments. This information was submitted to the DOJ from referrals reported in the JCPSS (see Understanding the Data).

Notes: Arrest data are reported by law enforcement agencies, whereas referral data are reported by probation departments.

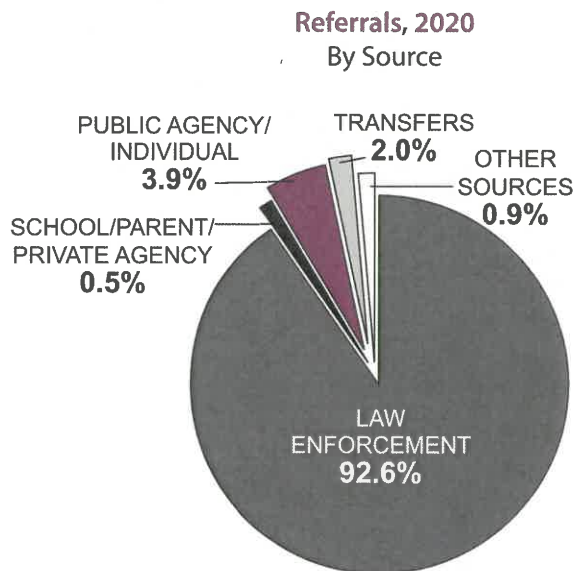

Comparisons between arrest data and referral data should not be made because of differences in the way data are reported between the two sources. See Understanding the Data for more detail.

In November of 2016, California voters passed Proposition 57, which ended the process of juveniles being transferred directly (direct filed) to adult court by county prosecutors. For additional information, see Understanding the Data.

Percentages throughout this section may not add to 100.0 because of rounding.

*Sierra County did not report in 2020. The DOJ continues to work with Sierra County in order to achieve 100 percent participation.

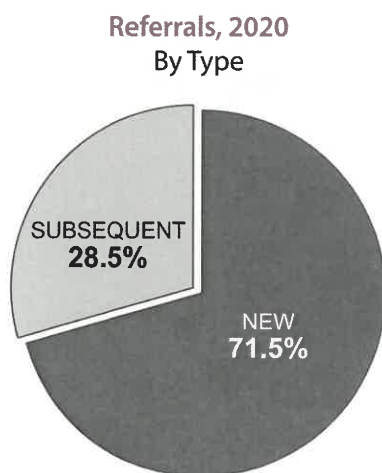

Referral Source and Type

Source: Table 9.

In 2020, of the 42,539 referrals to probation reported:

- 92.6 percent (39,390) were from law enforcement.
- 0.5 percent (230) were from schools, parents, and private agencies or individuals.
- 3.9 percent (1,672) were from public agencies or individuals.
- 2.0 percent (851) were transfers from another county or state.
- 0.9 percent (396) were from other sources.

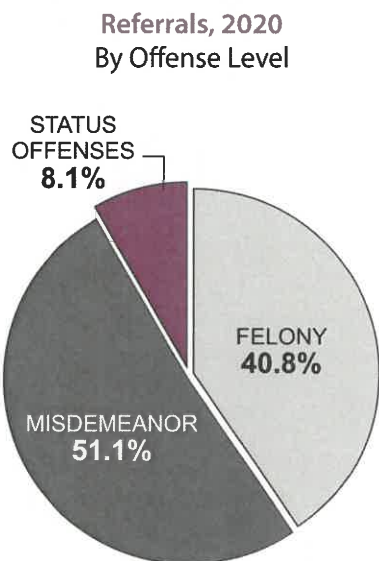

Source: Table 9.

In 2020, of the 42,539 referrals reported:

- 71.5 percent (30,435) were new referrals.
- 28.5 percent (12,104) were subsequent referrals.

Offense Level

In 2020, of the 59,316 referral offenses reported:

- 40.8 percent (24,199) were for felonies.
- 51.1 percent (30,310) were for misdemeanors.
- 8.1 percent (4,807) were for status offenses.

Note: As many as five offenses can be reported for each referral. Consequently, the number of referral offenses is higher than the number of referrals.

Petitions

In the juvenile justice system, a case may be handled informally by the probation department or formally by the juvenile court. If the case proceeds for formal processing, the district attorney files a petition with the juvenile court to initiate court action.

There are two types of petitions filed in juvenile court: new and subsequent. The term “new petition” applies to a juvenile who is not being supervised by the probation department and is typically a first-time offender. The term “subsequent petition” applies to a juvenile who is currently being supervised by the probation department and subsequently re-offends.

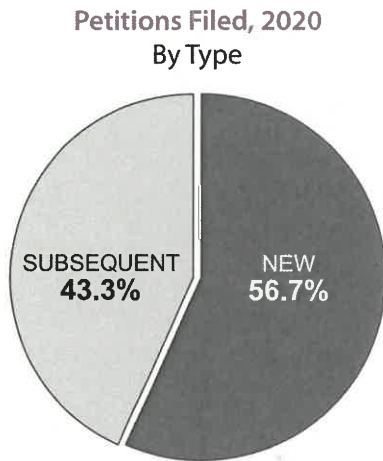

This section examines petitions by gender, age group, race/ethnic group, offense, fitness hearings, and disposition.

The data used in this section originated from 57* participating county probation departments. This information was routed to the DOJ from petitions reported in the JCPSS (see Understanding the Data).

Note: Percentages throughout this section may not add to 100.0 because of rounding.

*Sierra County did not report in 2020. The DOJ continues to work with Sierra County in order to achieve 100 percent participation.

Petition Type

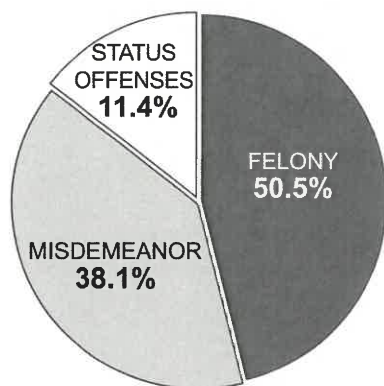

In 2020, of the 22,647 reported petitions filed in juvenile court:

- 56.7 percent (12,841) were new petitions.
- 43.3 percent (9,806) were subsequent petitions.

Adult Court Dispositions

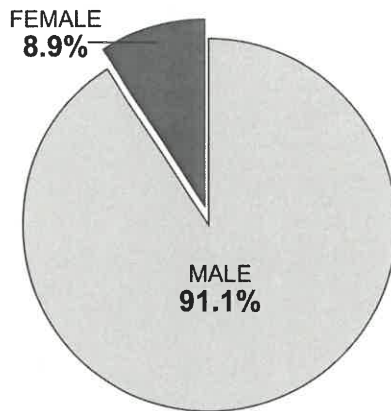

Juveniles can be transferred to the adult justice system for prosecution at the discretion of the district attorney or if they fail a juvenile court fitness hearing. In 2020, probation departments reported 25 remands to the adult system.

The adult-level disposition information in this section pertains to the 45 dispositions received in 2020 and examines adult-level dispositions by gender, age, race/ethnic group, offense, and disposition. The data were obtained from the DOJ's Criminal History System via a statistical export of dispositions. If a person is arrested for multiple offenses, the export process selects only the most serious offense based on the severity of possible punishment. If there are multiple court dispositions, it then selects the most serious court disposition and the associated offense (see Understanding the Data).

Appendix 1

Background

The Criminal Justice Statistics Center of the DOJ began compiling data describing California's juvenile justice system in 1947. In 1969, the DOJ developed the first computerized system for juvenile probation caseloads to collect information on juveniles who were supervised by probation departments or in detention facilities. The system was designed to track referrals within the juvenile probation system and to provide information on its progress through the probation and court processes from the time of referral to final disposition. The information collected links court and probation activities for a single referral.

In 1979, in an effort to upgrade the computerized data collection system, the DOJ developed the JCPSS as a pilot study. Ten counties participated in the initial study, and, in 1980, the pilot system was implemented statewide.

From 1980 to 1989, the JCPSS collected, compiled, and reported statistical data on the administration of juvenile justice in California. The system collected individual records on delinquent juveniles who were referred to California probation departments. These records contained information about the juvenile's referral source, referral offense, pre-adjudication detention, probation, and court disposition, as well as current supervision status and changes in prior supervision status. During this period, transaction reports were submitted at the time a disposition was made or when supervision was terminated.

In 1990, the JCPSS was discontinued because of budget reductions.

In 1995, the Legislature passed Assembly Bill 488 (Chapter 803, Statutes of 1995), directing the DOJ to reestablish the JCPSS. In June 1996, representatives from 14 probation departments and the DOJ met to finalize the reporting standards and began system development. In

January 1997, several probation departments began submitting data to the JCPSS.

In 1999, the Legislative Analyst's Office (LAO) recommended that the Legislature withhold 50 percent of the Temporary Assistance to Needy Families (TANF) funds from probation departments that did not submit JCPSS data by March 2000. At that time, only 22 probation departments were submitting data to the JCPSS.

In 2000, the LAO again recommended that the Legislature withhold 50 percent of the TANF funds from probation departments that did not submit JCPSS data by March 2001. In May 2000, a permanent JCPSS Advisory Committee was established to improve county participation and to discuss legislative changes affecting the JCPSS; no funds were withheld.

In 2001, the Legislature directed the DOJ, via Senate Bill 314 (Chapter 468, Statutes of 2001), to include in its annual juvenile justice report, statistics on the administrative actions taken by law enforcement agencies regarding juveniles whose cases were transferred to or directly adjudicated in adult criminal court. This legislation also prompted discussions on replacing the existing JCPSS software, provided to probation departments in 1996, with a web-enabled application. In 2002, the DOJ developed the web-enabled JCPSS application, and county probation departments were connected to the DOJ network the same year.

In 2003, the JCPSS web-enabled application became operational. Probation departments received training, and they began to submit data to the DOJ. Currently, 57 of California's 58 counties are connected to the web-enabled application, and all of those counties are submitting data. (The DOJ continues to work with Sierra County in order to achieve 100 percent participation.)

During the Fiscal Year 2018-2019 budget deliberations, the Legislature discussed whether the JCPSS should be overhauled and whether the DOJ should be required to lead and develop the modernization plan. As communicated during the deliberations, the DOJ agrees with the recommendation made by the California Juvenile Justice Data Working Group's January 2016 report to the Legislature that "[t]he Board of State and Community Corrections (BSCC) should have primary responsibility for developing the JCPSS replacement plan. The Legislature and the Governor should be advised of the need to identify and set aside the resources that will be needed both to plan and fund the replacement data system ... BSCC should work in concert with probation, courts, information technology experts, legislative committees, the [DOJ] and other stakeholders to produce a replacement plan ... " The DOJ stands ready to work with BSCC and other stakeholders on this endeavor.

The DOJ recognizes that there are many growing and evolving needs for complete criminal history information, for both juveniles and adults, to support the criminal justice community, the Legislature, research organizations, and other entities who are immediately concerned with the prevention or control of crime, the quality of criminal justice, or the custody or correction of offenders. In addition to the JCPSS, the DOJ maintains the state summary criminal history information repository for both juveniles and adults and stands ready to take the lead on developing a plan to develop a modernized juvenile and adult criminal history system with the capability of meeting the needs expressed by the California Juvenile Justice Data Working Group's January 2016 report, as well as the needs for technological modernization expressed by the Legislature, criminal justice agencies, and various advocacy groups. To that end, the DOJ worked with the Legislature during the Fiscal Year 2019-2020 budget deliberations to identify resources necessary to lead the development of a modernization plan, and, contingent on the receipt of funding, is prepared to do so.

Appendix 2

California Code Sections

Welfare and Institutions Code section 285

All probation officers shall make periodic reports to the Attorney General at those times and in the manner prescribed by the Attorney General, provided that no names or social security numbers shall be transmitted regarding any proceeding under section 300 or 601.

Penal Code section 13010

It shall be the duty of the department:

(a) To collect data necessary for the work of the department from all persons and agencies mentioned in Section 13020 and from any other appropriate source.

(b) To prepare and distribute to all those persons and agencies cards, forms, or electronic means used in reporting data to the department. The cards, forms, or electronic means may, in addition to other items, include items of information needed by federal bureaus or departments engaged in the development of national and uniform criminal statistics.

(c) To recommend the form and content of records that must be kept by those persons and agencies in order to ensure the correct reporting of data to the department.

(d) To instruct those persons and agencies in the installation, maintenance, and use of those records and in the reporting of data therefrom to the department.

(e) To process, tabulate, analyze, and interpret the data collected from those persons and agencies.

(f) To supply, at their request, to federal bureaus or departments engaged in the collection of national criminal statistics data they need from this state.

(g) To make available to the public, through the department's OpenJustice Web portal, information relating to criminal statistics, to be updated at least once per year, and to present at other times as the Attorney General may approve reports on special aspects of criminal statistics. A sufficient number of copies of a downloadable summary of this information shall be annually prepared to enable the Attorney General to send a copy to the Governor and to all public officials in the state dealing with criminals and to distribute them generally in channels where they will add to the public enlightenment. This subdivision shall not be construed to require more frequent reporting by local agencies than what is required by any other law.

(h) To periodically review the requirements of units of government using criminal justice statistics, and to make recommendations for changes it deems necessary in the design of criminal justice statistics systems, including new techniques of collection and processing made possible by automation.

(i) To evaluate, on an annual basis, the progress of California's transition from summary crime reporting to incident-based crime reporting, in alignment with the federal National Incident-Based Reporting System, and report its findings to the Legislature annually through 2019, pursuant to Section 9795 of the Government Code.

Penal Code section 13010.5

(a) The department shall collect data pertaining to the juvenile justice system for criminal history and statistical purposes. This information shall serve to assist the department, through its bureau whose mission is to protect the rights of children, in complying with the reporting requirement of paragraphs (3) and (4) of subdivision (a) of Section 13012, measuring the extent of juvenile delinquency, determining the need for, and effectiveness of, relevant legislation, and identifying long-term trends in juvenile delinquency. Any data collected pursuant to this section may include criminal history information that may be used by the department to comply with the requirements of Section 602.5 of the Welfare and Institutions Code.

(b) Statistical data collected pursuant to this section shall be made available to the public through the OpenJustice Web portal. The department may make available data collected pursuant to this section in the same manner as data collected pursuant to Section 13202.

Penal Code section 13012

(a) The information published on the OpenJustice Web portal pursuant to Section 13010 shall contain statistics showing all of the following:

- (1) The amount and the types of offenses known to the public authorities.
- (2) The personal and social characteristics of criminals and delinquents.
- (3) The administrative actions taken by law enforcement, judicial, penal, and correctional agencies or institutions, including those in the juvenile justice system, in dealing with criminals or delinquents.
- (4) The administrative actions taken by law enforcement, prosecutorial, judicial, penal, and correctional agencies or institutions, including those in the juvenile justice system, in dealing with minors who are the subject of a petition

or hearing in the juvenile court to transfer their case to the jurisdiction of an adult criminal court or whose cases are directly filed or otherwise initiated in an adult criminal court.

(5) (A) The total number of each of the following:

- (i) Civilian complaints received by law enforcement agencies under Section 832.5.
- (ii) Civilian complaints alleging criminal conduct of either a felony or a misdemeanor.
- (iii) Civilian complaints alleging racial or identity profiling, as defined in subdivision (e) of Section 13519.4. These statistics shall be disaggregated by the specific type of racial or identity profiling alleged, including but not limited to, based on a consideration of race, color, ethnicity, national origin, religion, gender identity or expression, sexual orientation, or mental or physical disability.

(B) The statistics reported pursuant to this paragraph shall provide, for each category of complaint identified under subparagraph (A), the number of complaints within each of the following disposition categories:

- (i) "Sustained," which means that the investigation disclosed sufficient evidence to prove the truth of allegation in the complaint by preponderance of the evidence.
- (ii) "Exonerated," which means that the investigation clearly established that the actions of the personnel that formed the basis of the complaint are not a violation of law or agency policy.
- (iii) "Not sustained," which means that the investigation failed to disclose sufficient evidence to clearly prove or disprove the allegation in the complaint.
- (iv) "Unfounded," which means that the investigation clearly established that the allegation is not true.

(C) The reports under subparagraphs (A) and (B) shall be made available to the public and disaggregated for each individual law enforcement agency.

(b) The department shall give adequate interpretation of the statistics and present the information so that it may be of value

in guiding the policies of the Legislature and of those in charge of the apprehension, prosecution, and treatment of criminals and delinquents, or those concerned with the prevention of crime and delinquency. This interpretation shall be presented in clear and informative formats on the OpenJustice Web portal. The Web portal shall also include statistics that are comparable with national uniform criminal statistics published by federal bureaus or departments.

(c) Each year, on an annual basis, the Racial and Identity Profiling Advisory Board (RIPA), established pursuant to paragraph (1) of subdivision (j) of Section 13519.4, shall analyze the statistics reported pursuant to subparagraphs (A) and (B) of paragraph (5) of subdivision (a) of this section. RIPA's analysis of the complaints shall be incorporated into its annual report as required by paragraph (3) of subdivision (j) of Section 13519.4 and shall be published on the OpenJustice Web portal. The reports shall not disclose the identity of peace officers.

Penal Code section 13012.5

(a) The annual report published by the department under Section 13010 shall, in regard to the contents required by paragraph (4) of subdivision (a) of Section 13012, include the following statewide information:

(1) The annual number of fitness hearings held in the juvenile courts under Section 707 of the Welfare and Institutions Code, and the outcomes of those hearings including orders to remand to adult criminal court, cross-referenced with information about the age, gender, ethnicity, and offense of the minors whose cases are the subject of those fitness hearings.

(2) The annual number of minors whose cases are filed directly in adult criminal court under Sections 602.5 and 707 of the Welfare and Institutions Code, cross-referenced with information about the age, gender, ethnicity, and offense of the minors whose cases are filed directly to the adult criminal court.

(3) The outcomes of cases involving minors who are prosecuted in adult criminal courts, regardless of how adult court jurisdiction was initiated, including whether the minor was acquitted or convicted, or whether the case was dismissed and returned to juvenile court, including sentencing outcomes, cross-referenced with the age, gender, ethnicity, and offense of the minors subject to these court actions.

(b) The department's annual report published under Section 13010 shall include the information described in paragraph (4) of subdivision (a) of Section 13012, as further delineated by this section, beginning with the report due on July 1, 2003, for the preceding calendar year.

*These code sections can be either a felony or a misdemeanor.

Appendix 5

Juvenile Justice Glossary

Caseload – The number of juveniles under the supervision or jurisdiction of a probation department, excluding courtesy supervision, but including juveniles on diversion, informal probation (654 or 654.2 WI), non-ward probation (725(a) WI), or deferred entry of judgment (790 WI), and those who are wards of the juvenile court.

Closed at Intake – A referral that is closed by the probation department following an investigation of the circumstances and nature of the alleged offense. No further action is taken.

Deferred Entry of Judgment – A treatment program for first-time felony offenders aged 14 to 17 (790 WI).

Deferred Entry of Judgment Failure – A felony offender who fails the treatment program (793 WI).

Delinquent Act – An act committed by a juvenile for which an adult could be prosecuted in a criminal court.

Detention – The status of a juvenile immediately after arrest and prior to any court action.

Direct File in Adult Court – The filing of a juvenile case in a court of criminal jurisdiction (adult court) pursuant to 602(b) or 707(d) WI. (In 2016, voters passed Proposition 57 which ended the process of direct filing in adult court for juveniles.)

Dismissed – A petition dismissed by the juvenile court with no further action taken.

Disposition – An action taken by the probation officer or juvenile court because of a referral.

Diversion – Any delivery or referral of a minor by the probation department to a public or private agency with which the city or county has an agreement to provide diversion services. Diversion services must meet the following criteria:

- 1) The probation department must have referred the minor and maintain responsibility for that minor's progress.
- 2) Placement and monitoring of the minor must have a beginning and ending date.

Diversion Dismissed – The successful completion of a diversion program.

Division of Juvenile Justice (DJJ) – The state entity that has jurisdiction over and maintains institutions as correctional schools for wards of the juvenile court and other persons committed from superior courts. (In July 2005, the California Youth Authority was consolidated with the California Department of Corrections and Rehabilitation and renamed the Division of Juvenile Justice.)

Fitness Hearing – A hearing to determine whether the juvenile is a fit and proper subject to be dealt with under the juvenile court law. If the juvenile is found fit, adjudication remains in the juvenile court. If the juvenile is found unfit, adjudication is transferred to the adult court (707(a) WI).

Incorrigible – Incapable of being corrected, reformed, amended, or improved. With respect to juvenile offenders, unmanageable by parents or guardians.

Informal Probation (654 WI) – Supervision of a minor, in lieu of filing a petition, for a period not to exceed six months. The supervision is based on a contractual agreement between a probation

officer and a minor's parents or guardian under Welfare and Institutions Code section 654.

Informal Probation (654.2 WI) – Supervision of a minor, in lieu of declaring a minor a ward of the court, for a period not to exceed six months. The supervision is based on a contractual agreement between a court and a minor's parents or guardian. The period of supervision may be extended.

Non-Secure Facility – A facility where a juvenile is not physically restricted from leaving.

Non-Ward Probation – Probation grant, without wardship, from juvenile court for a specific time not to exceed six months (725(a) WI).

Petition – The formal presentation to juvenile court of information related to a juvenile's alleged offense (similar to a criminal complaint for an adult).

Population at Risk – That portion of the total population who, because of like characteristics to the specific study group, are considered "at risk." For juveniles, all persons between ages 10 and 17 would constitute the at-risk population.

Private Facility – A facility operated by a private individual or group.

Public Facility – A facility operated by a governmental agency other than a county probation department.

Referral – A juvenile who is brought to the attention of the probation department for alleged behavior under Welfare and Institutions Code sections 601 and 602.

Remand to Adult Court – A disposition resulting from a fitness hearing that finds a juvenile unfit for the juvenile system and transfers a juvenile to the adult system.

Reverse Remand – Occurs when a case is sent back to the juvenile system from the adult system.

Reverse Waiver for Sentencing – Occurs when the adult system sends a juvenile back to the juvenile system for sentencing.

Secure Facility – A facility where a juvenile is held behind a locked door, gate, or fence, or in which some person is responsible for physically preventing the juvenile's escape or departure from the facility. Secure facility includes electronic monitoring.

Status Offenses – Acts that would not be classified as crimes if committed by adults.

Technical Violation – Occurs when a juvenile violates a condition of his or her probation but does not commit a new offense.

Traffic Court – A disposition indicating the case was transferred to the traffic court for processing.

Transfer – A disposition that transfers a juvenile to another county juvenile court or probation department.

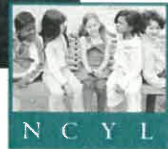

Wardship Probation – A probation grant in which a minor is declared a ward of the juvenile court and placed on formal probation.

WI – Welfare and Institutions Code.

Acknowledgments

The DOJ is mandated by statute to submit an annual *Juvenile Justice in California* report. The department extends its appreciation to all the probation departments and law enforcement agencies that provided complete and timely data. This report would not have been possible without their cooperation.

Contra Costa County Community Resource Guide

About Us

The National Center for Youth Law envisions a future where each and every young person in foster care, experiencing homelessness, or under the jurisdiction of probation, graduates from high school with a wide array of possibilities for their future. We join in solidarity with a growing movement across the country to ensure equitable opportunities and outcomes for ALL young people.

To achieve this shared vision, it is imperative that leaders from multiple public systems – child welfare, education, mental health, probation, judicial agencies, and the rich landscape of community organizations – band together with persistence and collaboration to build the conditions under which:

- **Children and youth** are engaged in learning, empowered to create futures they are excited about, and have champions in their corner for the long run.
- **Parents, family members, mentors, and other trusted adults** are fully invested in their role as education champions and are consistently and meaningfully supported.
- **System and community leaders** collaborate deeply on a shared vision that lifts up the voices of young people and helps realize equitable opportunities and outcomes for all students.
- **Professionals** working directly with young people in support of their education are appreciated, supported, and connected with one another.

Using this Resource Guide

In support of this vision, we have compiled a Community Resource Guide of available programming and services for young people in Contra Costa County. This guide can be utilized by community members or service providers to connect young people, especially those in foster care, with programs, services, and other community resources. Resources are categorized by type and may appear more than once throughout the Community Resource Guide, in each of the relevant service categories.

Recognizing the fluidity in available programming and services, this Community Resource Guide will exist electronically and can be continually updated for ongoing accuracy.

A photograph of three children in a school cafeteria. In the foreground, a young girl with dark hair and a grey and red striped shirt is smiling and holding a sandwich. Behind her, a boy is looking down at his food. To the left, another child is partially visible, also eating. There are white food containers and a sandwich on the table.
